

The Saints' Academies Policy for Spirituality

Spirituality Policy

Church schools serving their communities through their chosen values within the love of God.

Rationale

Spirituality is a powerful force that determines what we are, and our self-understanding. It forms the basis for successful relationships, and shapes our behaviour and outlook on life, others and the world. Spiritual development relates to that aspect of inner life through which we acquire insight into our personal experiences which are of enduring worth.

At the Saints Academies the spiritual dimension is expressed through our strong Christian faith, and the recognition of the spiritual nature of mankind. Our ethos enables and encourages all children to grow and flourish spiritually.

It is our aim that the children's individual spiritual development is fostered as an integral element of the range of learning opportunities and experiences they encounter as part of the curriculum, and that it permeates all strands of school life.

Aims

The aims for spirituality at the Saints Academies are:

To enable children to develop their personal qualities and become: - Responsible for themselves, accepting an appropriate measure of responsibility

To provide a context of faith, security and loving relationships to support each child's spiritual search.

To foster the spiritual development of each child, regardless of age, sex, ability or cultural background.

To foster self-awareness and promote a feeling of self-worth.

To develop and be able to articulate a set of values, principles and beliefs.

To be able to distinguish between right and wrong in their school life and the wider world.

To develop respect and empathy for other people and their beliefs, feelings and values.

To be confident to respond appropriately to injustice and prejudice.

To develop the children's enthusiasm to explore and learn through enquiry and first-hand experiences.

To enable the children to attribute meaning to experiences.

To enable the children to value the non-material dimension of life.

To foster reflection and stillness.

To foster a sense of meaning, purpose and direction in life.

To encourage imagination and creativity.

To be able to reflect positively on their learning and plan for future development.

To develop a sense of awe and wonder at the miracle of creation, life and the natural world.

To enable the children to experience a sense of enjoyment and fascination in learning about themselves, others, and the world around them, including the intangible.

To share Christian stories and respond to Christian festivals, rituals and symbols, particularly those from the Anglican tradition.

All staff, including Support Staff, and visitors to school are involved in the spirituality of all of the school community. This is evident in the way that children and adults conduct themselves and the relationships between them all.

Organisation and Implementation

Spiritual development is an important element of a child's education and fundamental to all other areas of learning.

Without curiosity, without the inclination to question, and without the exercise of imagination,

insight and intuition, children would lack the motivation to learn. In view of this teaching styles are adopted which:

- Value the children's questions and give them space for their own thoughts, ideas and concerns.
- Enable the children to make connections between aspects of their learning.
- Encourage the children to relate their learning to a wider frame of reference, e.g. asking 'why?', 'how?', and 'where?' as well as 'what?'.

Spirituality is not taught but is an inherent interwoven part of all aspects of school life and is nurtured and promoted as a natural element of the curriculum. The following opportunities will be made available, as an integral part of the school's practice, in order to facilitate the development of spirituality:

- To explore values and beliefs, including religious beliefs, and the way in which they impact on peoples' lives.
- Where children already have religious beliefs, to support and develop these beliefs in ways which are personal and relevant to them as an integral part of the school's practice.
- To engage in enquiry and exploration as part of experiential, first hand learning.
- To look attentively and observe carefully.
- To be creative and imaginative.
- To listen with discernment.
- To reflect and respond to issues in moments of quiet or inspired through music, art, text, film or artefacts.
- To explore and develop what animates themselves and others.
- To understand human feelings and emotions, the way they impact on people and how an understanding of them can be helpful.
- To value what is good and worthwhile and to make value judgements through discussion and exchange of views.
- To work collaboratively with peers, valuing the contribution made by others.
- To respect all, as modelled by staff in their relationships with others.
- To experience silent, calm and tranquil moments which afford time for reflection.
- To work and live in harmony with others in the school and wider community.
- To have confidence to express ideas, views and opinions, even if others do not agree.

Opportunities for spiritual development are presented or naturally arise, and are promoted in all aspects of the curriculum and school life as the children become actively engaged in an enquiry based curriculum, which provides a wide range of experiential learning opportunities that enables them to question, consider, reflect and respond, and consider their own values, beliefs and feelings and those of others, with whom they are working alongside or with.

- To engage in charity-based activities.
- To participate in a wide range of events and activities, involving a range of outside agencies, coaches, etc.

In order to facilitate spiritual development, the organisation of the school and the environment for learning are such that:

- Everyone involved in the life of the school is valued and seen to be valued.
- Policies and ensuing practices are clearly seen to reflect the worth of individuals.
- Behaviour and people management policies and practices are collectively arrived at and discussed regularly.
- All adults recognise the need to set good examples of mutual respect and considerate behaviour.
- The quality and nature of the learning environment and displays reflect the value placed on pupils and staff.
- Aesthetic awareness is encouraged.
- The atmosphere of the school welcomes differences in beliefs and values, and invites everyone to belong.
- The achievements, successes and efforts of everyone are recognised and celebrated.

Assessment

Spirituality will be assessed as an integral part of curriculum practice and the children's involvement in the life of the school community.

These are areas in which children are expected to grow as part of their spiritual development:

- Reflect on their experiences with increasing sensitivity.
- Question and explore the meaning of experience.
- Understand and evaluate a range of possible reasons and interpretations.
- Develop personal views and insights.
- Apply insights gained with increasing degrees of perception to their own lives in line with the school's Anglican status and history.
- Know that belief is valuable and that the Christian belief is endorsed by the whole school community.

Monitoring and Review

Provision for spiritual development is monitored and reviewed by:

- Monitoring of teaching and learning and work scrutiny by RE/Collective Worship Leader, senior leaders, Executive Head Teacher and LAC members.
- Pupil Voice.
- Discussions at staff and Local Academy Council.
- Audits of policies and schemes of work.
- RE and Collective Worship Development Plans.
