

# Where in the world?

How is life different in other parts of the world?

## Essential/Core Vocabulary

**Africa** - A very large place in the world with many countries.

**Map** - A picture that shows places.

**Habitat** - A place where animals live.

**Savanna** - A hot grassy place where animals like lions live.

**Rainforest** - A warm, wet place full of trees and animals.

**Desert** - A very hot, dry place with sand.

**Hot** - Very warm temperature.

**Cold** - Very low temperature.

**Compare** - To look at how things are the same or different.

## Lesson 1 - What is Africa?

LO: To know Africa is a continent in the world.

## Lesson 2 - Savanna Habitat

LO: To explore an African savanna.

## Lesson 3 - Rainforest Habitat

LO: To explore an African rainforest.

## Lesson 4 - Desert Habitat

LO: To explore an African desert.

## Lesson 5 - Africa vs UK

LO: To compare different countries

## Lesson 6 - Where Do Animals Live?

LO: To recall learning about habitats

## End Point Activity: Our World Habitat Map

Overview - Children create and use a large class world map to show what they know about Africa, habitats, and animals. This is a structured, hands-on task with discussion built in.

## Key Knowledge

- Africa is a large place in the world.
- We live in the UK.
- A savanna is hot and grassy.
- A rainforest is warm, wet and full of trees.
- A desert is very hot and dry.
- Animals live in places called habitats.
- Different places have different weather.
- The UK and Africa are different.

## Links to our core values...

How can we show love towards animals and our planet?

How can we protect our world for the future?

How can we show friendship to the global community?
